Associated Action Reports

DataID: 0390277

Date: 4/21/2011	Time: 09:45	
Duty Officer/Responder Name: Rothouse	NRC Report #: 973637	Hotline Log DataID: 966323
Action Information		
Description: I contacted the RP (Neil Skowert/ Con Edison) to determine if there has been an actual leak of dielectric fluid. He informed me that there is conflicting data, but it appears that no leak actually occurred. However, they will have a meeting @ 13:00 to again review the data. We agreed to talk again @ 13:30 hrs.

DataID: 0390333

Date: 4/21/2011	Time: 13:36	
Duty Officer/Responder Name: Rothouse	NRC Report #: 973637	Hotline Log DataID: 966323
Action Information		
Description: Followed up with Neil Skow (not Skowert as previously erroneously indicated) who advised me that the results are still inconclusive. However, if it is indeed a release, based on their finding thus far it would be less than 2 Gal/hr. They are having a third meeting today at 17:00 hrs to discuss their findings further. I advised Mr. Skow that I would f/u tomorrow morning.

DataID: 0390341

Date: 4/21/2011	Time: 14:03	
Duty Officer/Responder Name: Rothouse	NRC Report #: 973637	Hotline Log DataID: 966323
Action Information		
Description: As an added note, after speaking with Dave Tilton of the NY DEC, I was advised that the major concern is that if there is indeed a release occurring it could impact the Hudson River. But, he was also told that if a release occurred it is less than 200 gal at a release rate of 2 gal per hr.

Person Contacted		
Name: Dave Tilton Organization: NY DEC Phone #: 800-457-7362		

DataID: 0390588

Date: 4/22/2011	Time: 09:13	
Duty Officer/Responder Name: Rothouse	NRC Report #: 973637	Hotline Log DataID: 966323
Action Information		
Description: I spoke with Dave Duke/ 212-580-8383 (Neil Skow not in today). The situation is still inconclusive. They are still in a search mode. They are driving over the feeder route to try & detect any smell (synthetic gas with feeder oil emits distinct odor). They are also in the process of making bar holes in order to take bar samples. To date they haven't found any free product. They did detect some small amounts gas in some parts of the Bronx, but this could be from years ago. They will have another meeting at 2 PM this afternoon to determine what the current status is. I requested Mr. Duke to call me following this meeting		

, & If I wasn't available to speak with Oscar Haas about their findings, conclusions & their way going forward.
